(a) along the field
for R = 2.5 μm, μm
added stress, MPa
normal along radius
von Mises
distance from surface d, Å
(b) across the field
for R = 2.5 μm, μm
normal along radius
normal along x
von Mises
distance from surface d, Å
(c) shear on the slip plane
for R = 2.5 μm, μm
25°
67°
distance from surface d, Å
(d) far field
magnitude, MPa
along the field
across the field
shear, 25°
r/R (single sphere)
